Profile

My goal is to bring my passion for web and software development to a positive, high-paced workplace. I bring with me a proven track record of strong, consistent focus on tasks at hand, reliability, and the drive to be both creative and organized. I have many years of experience working on my own in the workplace and on personal projects, as well as closely with others towards shared goals.

Technical Skills

- **Languages**: Java, JavaScript, learning C
- **Web Design**: Bootstrap, HTML, CSS, Ionic
- **Database Design**: SQL, Microsoft SQL Server, Microsoft Visio
- **Tools**: GitHub, Photoshop, Eclipse, Microsoft Office, WebStorm, Google SketchUp

Academic Project Experience

Relational Database Design & SQL Projects / BCIT   [MAY – JULY 2017]

- Designed a relational database system for managing data regarding a university alumni association
- Used Microsoft SQL Server Management to create a new database and execute SQL statements to insert, update, delete and view data, and create and execute stored procedures and triggers
- Links to view projects here: https://ddiiorio.github.io/BCIT/database.html

Mealio Web App / BCIT Project Term – Metro Vancouver   [APRIL – MAY 2017]

- LINK: www.mealio.tk
- Developed a web app in teams of 5 using ReactJS, Bootstrap, Google Firebase, HTML, CSS
- Agile scrum framework was used to manage the development process, including 3 one-week sprints to accomplish specific goals
- Utilized a Gitflow Workflow to develop individual features on local branches, then merging to develop for testing/review, and finally to master for official releases

Personal Project Experience

Event Schedule Web/Android App / Ionic Framework   [AUG – SEPT 2017]

- Created a clean app to keep track of past and upcoming event dates, sorted chronologically
- Developed with an Ionic Framework using Angular 2 and Google Firebase integration
- Work in progress

Bullfrog Spas Web Work / South Island Fireplace & Spas   [JUNE – AUG 2017]

- LINK: www.southislandfireplace.com/bullfrog_spas.html
- Created new page on past employer's website for their new spa product line
- Developed in the Bootstrap framework for sleek and responsive UI, nested HTML elements within the Bootstrap grid, styled with CSS

Danny Di Iorio

Other Work Experience
