- **Tools**: GitHub, Photoshop, Eclipse, Microsoft Office, WebStorm, Google SketchUp

Non-Technical Skills

- Professional experience involving both verbal and written communication
- Excellent time-management skills via academic & personal project management
- Ability to solve problems independently as well as take direction in a team environment

Academic Project Experience

Relational Database Design & SQL Projects / BCIT   [MAY – JUL 2017]

- Link: https://ddiiorio.github.io/BCIT/database.html
- SQL Server Management Studio was used to create a new relational database system and execute SQL statements to insert, update, delete and view data, and create and execute stored procedures and triggers

Mealio Web App / BCIT Project Term – Metro Vancouver   [APR – MAY 2017]

- Link: www.mealio.tk
- Developed a web app in teams of 5 using ReactJS, Bootstrap, Google Firebase, HTML, CSS
- Agile scrum framework was used to manage the development process, including 3 one-week sprints to accomplish specific goals, controlled using Gitflow Workflow

Personal Project Experience

Bullfrog Spas Web Work / South Island Fireplace & Spas   [JUN – AUG 2017]

- Link: www.southislandfireplace.com/bullfrog_spas.html
- Refreshed the website I created for past employer with a new page for their new spa product line
- Developed in the Bootstrap framework, nested HTML elements within the Bootstrap grid, styled with CSS

Other Work Experience

Design & Sales Consultant / Elements Outdoor Inc.   [SEP 2007 - PRESENT]

- Render 3D models of outdoor kitchens for sales and production purposes using Google SketchUp
- Support and maintain the company emails/computers/printers/phones on internal network
- Generate accurate and detailed sales/marketing documents, reports, and quotes

Education & Training

Computer Systems Technology / British Columbia Institute of Technology, Burnaby

- 90% GPA in Winter & Spring terms   [JAN 2017 – APR 2019 (EST)]
